

Mr. Umar Rasheed

App Developer

About me

I am a dedicated student with a strong passion for app development and a keen interest in technology. Currently pursuing my studies, I have gained hands-on experience in building mobile applications using React Native

React Native

- Programmed applications and tools using React Native with a goal for code abstraction, stability, and reuse.
- Build pixel-perfect, buttery smooth UI's across both mobile platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native
- Leverage native APIs for deep integrations with both platforms.

Education
